### BCTIA TEAM

## MESSAGE FROM THE CHAIRMAN & PRESIDENT

In our 18th year of supporting BC's technology industry, BCTIA has made significant strides in establishing our industry as a critical catalyst in the growth of BC's overall economy.

The mission for the BC Business Council for the year is to continue to support the growth of BC's technology industry, to provide a clear and positive impression that our industry is robust and important to BC's overall economy and to focus our efforts on driving our economic recovery forward. It is exciting that we continue to build on our success in supporting the technology industry, to provide a clear and positive impression that our industry is robust and important to BC's overall economy and to focus our efforts on driving our economic recovery forward.

The Economic Stimulus Plan, an initiative of the Federal and the British Columbia Governments, provides over \$100 billion in investments in infrastructure, research and development, and other initiatives to stimulate the BC technology industry, and is a significant catalyst in the growth of BC's overall economy.

The BCTIA team believes in the growth of the technology industry and the success of the past year and further examples of our continued commitment. Our continued commitment to the industry will continue to provide a significant and sustainable program to the technology industry and the province of BC.

Your support allows us to continue to provide the services and programs that are critical to the growth of the technology industry.

## ABOUT THE BC TECHNOLOGY INDUSTRY ASSOCIATION

**WHO WE ARE**  
The BC Technology Industry Association is a British Columbia leading member-based industry association that represents over 100 technology companies across the province.

**OUR MISSION**  
Through the delivery of programs, services and communications, we will continue to provide a clear and positive impression that our industry is robust and important to BC's overall economy and to focus our efforts on driving our economic recovery forward.

**OUR VISION**  
In 10 years, technology industry will continue to be a significant and sustainable program to the technology industry and the province of BC.

**WHAT WE DO**  
We support our members and also our partners in their growth through various programs and services that are critical to the growth of the technology industry.
