

2006/07 annual review

2006/07 highlights

Full-time membership of the industry association has increased by 10% over the last year, with a further 15% increase in the number of part-time members. This is a significant achievement, particularly in light of the current economic climate.

A major focus of the association's work has been to support its members in their efforts to improve their environmental performance. This has been achieved through a range of initiatives, including the development of a new environmental management system and the provision of training and advice to members.

Key achievements

The association has successfully completed a number of key projects, including the development of a new environmental management system and the provision of training and advice to members. This has resulted in a number of members achieving significant improvements in their environmental performance.

Key achievements continued

- The association has successfully completed a number of key projects, including the development of a new environmental management system and the provision of training and advice to members.
