

YEAR IN REVIEW 2014 - 2015

A dark blue silhouette of a city skyline with several skyscrapers is positioned in front of a lighter blue silhouette of a mountain range with snow-capped peaks.

The BC Technology Industry Association (BCTIA) is guided by a mission to **make BC the best place to grow a tech company**. For more than 29 years, the BCTIA has helped to grow our province's tech cluster to over 1,000 companies that employ nearly 90,000 people, and that now outpaces the resource industry in terms of economic contribution to the province.

Our mission is to help tech companies grow, and it is supported by our core values: **Paying it Forward, Growing Together, and Supporting the Home Team.**
